LinkedIn: linkedin.com/in/kelvin-krauss

Systems Analysis and Development student at the Federal Institute of Santa Catarina (IFSC). I am interested in AI, web development, back-end and AWS, and I have been building my technical foundation through academic projects and programs such as Entra21 and bootcamps. With a focus on Java, Spring Boot, SQL and Python, I have been exploring automation tools to solve problems in a practical and agile way.

EXPERIENCE

Apprentice: Administrative and Accounting Assistant - *Ociani Transportadora*

January 2026 - Present

Apprentice role through a partnership between **SEST SENAT** and **Ociani**, a trucking company, focused on **administrative support**, **accounting routines** and **technical assistance**. **Accounting Support:** helping the accounting department with **document organization**, **data entry** and **support** for **daily accounting routines**. **Technical Support:** responsible for hardware maintenance and **user support**, including **computer repair**. **Web Development:** built the company's new corporate website (project below).

Professional Project: New corporate website - *Ociani Transportadora*

I built and launched the company's **new corporate website**, replacing the old one. **Freight quotes**, **pickup requests** and **quote lookup** integrated with the **SSW** management system (SOAP web services); **delivery tracking**, **Customer Area**, an animated coverage map and a news panel (**Sanity CMS**). Built with **Astro** and **TypeScript** and hosted on **Cloudflare**, with a DNS migration that kept the company's email running and redirects from the old addresses to preserve Google rankings. Developed with **AI (Claude)** as a programming assistant. (<https://www.ociani.com.br/>)

Academic Project: Financial Transactions Control App (OOP in Java) - *NTT DATA Bootcamp*

Development of a complete **banking simulation system**, with features such as **account creation**, **investments**, **deposits**, **withdrawals**, **transfers**, **transaction history** and **investment portfolio**, built in **Java** using **Object-Oriented Programming** principles such as **classes**, **methods**, **encapsulation** and **control flow**. Implementation of custom **data structures** to manage accounts, investments and financial transactions. Creation of a console interface to simulate banking operations. Date and time recorded for every operation, creating a **traceable history** for each account.

Personal Project: Personal website and portfolio - *Independent development*

Website built with **HTML**, **CSS** and **JavaScript**, hosted on **Vercel**. Includes links to my repositories and an AI assistant that answers questions about my experience. (<https://kelvinkrauss.me/>)

EDUCATION

Undergraduate Degree - Systems Analysis and Development, IFSC - In Progress

July 2026 - Expected graduation: December 2028

Bachelor's Degree - Computer Science, IFC - External Transfer

January 2025 - Transferred in June 2026

High School, Alfa Castelo Blumenau - Completed

January 2022 - December 2024

ADDITIONAL TRAINING

- **NTT DATA Bootcamp - Java and AI for Beginners** 48h - 2025
Certificate ID: [JMQY7H3V](#)
- **Entra21 Program - Web Developer - Back End (Java)** 220h - 2024
- **Fundação Bradesco - Programming Logic Fundamentals** 15h - 2023
Certificate ID: EB616ABF-EC1E-43B8-B4C1-300E111ED5BF

Tech Skills

- | | | | |
|--------------|--------------|---------------|-----------|
| • AI | • Java | • SQL | • CSS |
| • AWS | • JavaScript | • Maven | • HTML |
| • GitHub | • Python | • Spring Boot | • Postman |
| • TypeScript | • Astro | • Cloudflare | • DNS |

Soft Skills

- | | | | |
|-----------------|--------------|----------------|---------------|
| • Communication | • Dedication | • Organization | • Flexibility |
| • Teamwork | • Curiosity | • Innovation | • Empathy |
